

Transparent Governance, Robust Risk Management and Timely Compliance

In the aftermath of the recent economic turmoil, various industries and geographies realized the importance of enhanced governance, robust risk management practices and stringent regulatory guidelines, in order to keep pace with financial innovation.

Atos Syntel's expertise in core areas of Dodd Frank, Solvency 2, MiFID, AML, KYC and BASEL gives us an advantage over other service providers, to make us your preferred business partner in conforming to regulations that affect the banking and finance world, and impact your business. Our Governance, Risk and Compliance (GRC) offerings assist you in understanding the nuances of the regulations, and conform to enterprise-wide risk management, while ensuring a boost in your business processes and enhanced efficiency.

Atos Syntel's GRC Offerings

Atos Syntel's GRC offerings range across the banking and finance industry, assisting organizations in assessing their threats, complying to statutory regulations and decreasing operational threats.

Framework and Accelerators

Atos Syntel's GRC service offerings are unique, flexible and scalable, with the following frameworks and accelerators:

- **Dodd Frank Implementation – Tools and Analyzers**
- **Real Time Risk Profiling and KYC Checks, via MDM Hub**
