

INCREASING PRODUCTIVITY BY 25% BY TRANSFORMING A DOCUMENT MANAGEMENT SYSTEM

BUSINESS GOALS

The client a German pharmaceutical company, and one of the largest API manufacturers in the world. They acquired a firm that largely operated on paper-based documentation, and asked Atos Syntel to set-up a document management process to support the processing, archiving and retrieval of documents from the acquired company.

BUSINESS BENEFITS

- 1.3 MILLION PAPER TMF RECORDS WERE DIGITIZED IN 12 MONTHS
- INDEXED AND UPLOADED FILES INTO DOCUMENT MANAGEMENT SYSTEM WITH 99% ACCURACY
- 25% INCREASE IN PRODUCTIVITY BY DECREASING MANUAL EFFORTS
- CREATED AUDIT AND INSPECTION-READY DOCUMENT REPOSITORY
- COST EFFECTIVE ONSITE-OFFSHORE OPERATING MODEL

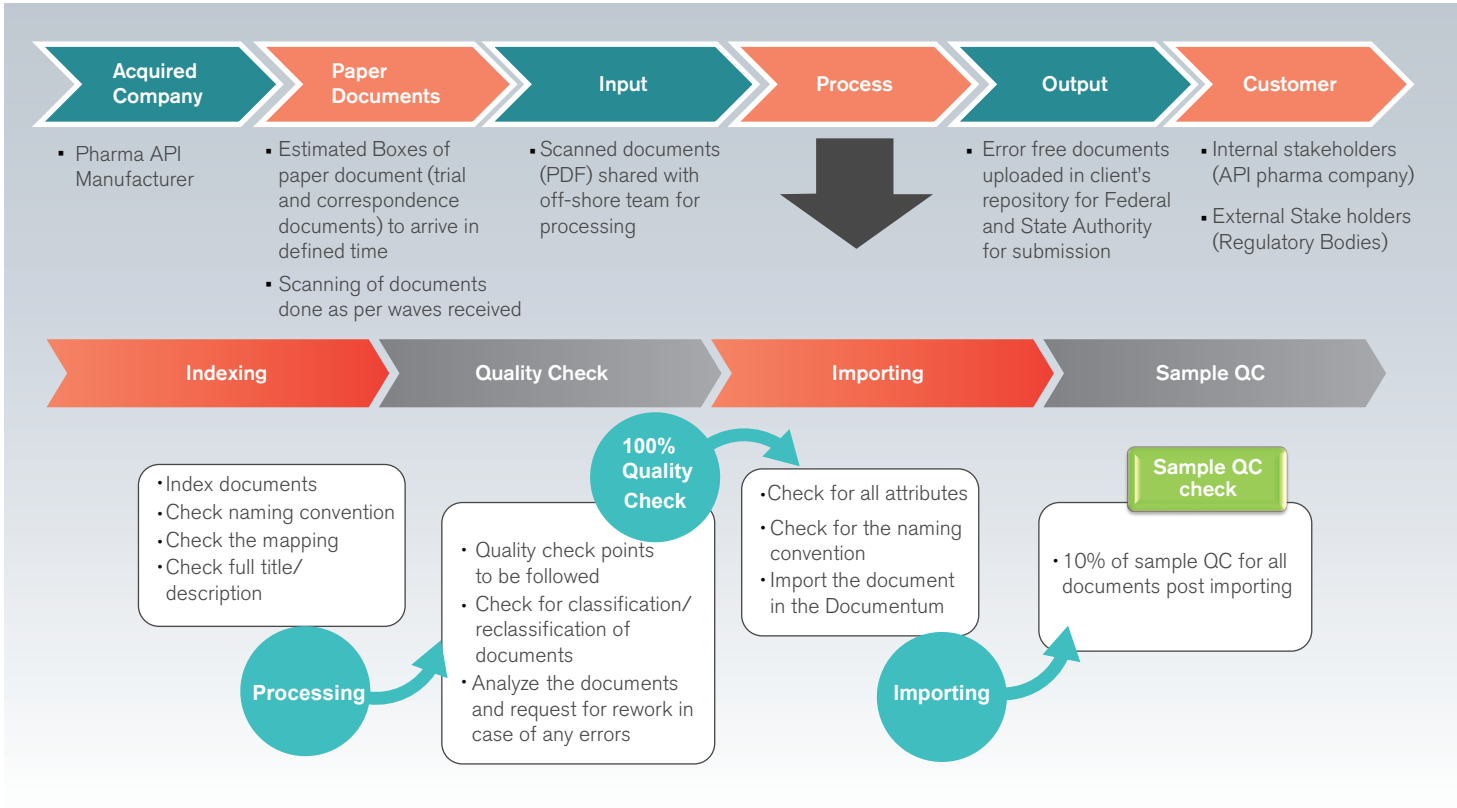

CHALLENGES

- Hybrid paper/electronic documentation system
- Not all materials were digitized and available in a central document management system
- Paper documents were difficult to retrieve and manage
- Managing and maintaining paper documents was costly and inefficient

SOLUTION

- Supported end-to-end trial master file (TMF) management, including scanning, indexing and importing files into the client's eTMF application
- Developed quality check (QC) framework for the TMF management process
- Introduced quality check gates from document receipt to archival
- TMF migration and reconciliation support
- Created SOPs (Standard operating procedures) and work instructions
